The purpose of the webinar was to provide an overview of a new FTA resource document titled "*Response and Recovery for Declared Emergencies and Disasters: A Resource Document for Transit Agencies.*" www.fta.dot.gov/documents/FTA_Response_Recovery_Declared_Emergencies_Disasters.pdf. This document addresses response and recovery actions that transit agencies can take, including securing funding and reimbursement for restoring services following a declared emergency or disaster. It is written specifically for transit agencies that are either affected by a declared emergency or disaster or that offer services to an affected community or region. It applies to all modes of transit and to all types of declared emergencies and disasters.
