REGION 10 BULLETIN NO: 2016-27

Subject: Update on Budget Revisions and Closeouts with Non-Add Scopes in TrAMS

Date: June 16, 2016

Several months ago, the Federal Transit Administration (FTA) uncovered a Transit Award Management System (TrAMS) technical difficulty that was causing the budgets of Transportation Electronic Award Management (TEAM) awards with non-add scopes (i.e. 99X-00) to become additive when a recipient took post-award action, such as a budget revision, closeout amendment, or other amendment on the grant.

FTA developers have completed their fix to this issue. Recipients who have been waiting to start a budget revision, closeout amendment, or other amendment to a grant with non-add scopes may now proceed with these actions.

If you submitted a budget description with a non-add scope PRIOR to this fix having been made, you'll need to wait for the budget revisions to be deleted in TrAMS before you can re-submit a new request. This may take our contractor several weeks to complete.

We appreciate your patience while this issue was being resolved. For further information, contact Region 10's Scot Rastelli at 206-220-7965 or email scot.rastelli@dot.gov.

Sincerely,

Kenneth A Feldman
Deputy Regional Administrator
