NTD Reporting System

Background
The National Transit Database (NTD) is the primary source for information and statistics on U.S. transit systems. Congress requires agencies to report NTD data on an annual basis if they receive or benefit from §5307 or §5311 formula grants. NTD also requires monthly operating and safety statistics reports from agencies that file as a “Full Reporter”. FTA submits annual NTD reports that summarize transit service and safety data to Congress for review and use.

- Monthly ridership reporting begins October for reporting September data.
- Annual reporting begins December 15 for Fiscal Year (FY) reporting.

Annual Reporting Timeframe
An agency’s NTD report due date based on the agency’s Fiscal Year end date. Agencies submit their Annual Report four months after their Fiscal Year expires.

During the revision time, reporters work with NTD analysts to ensure that the data is accurate per NTD reporting requirements. The end of the revision period is called the report ‘Closeout.’

Note: Monthly reports for full reporting agencies are due on the last day of the following month (e.g., January data is due February 28).

NTD System Validation

Saving Your Data

There are two options for saving your data at the bottom of each report form:

1. **Save**: If you want to enter partial data into a report form and revisit at a later time.
2. **Save and Validate**: When the form is complete and ready for review, the “Save and Validate” button applies the business-logic rules/rules of validation to all data entered in the form. Select this option every time you revise or enter new data.
3. **Close**: Closes the form without saving the data to the database.
Viewing Issues

After selecting the **Save and Validate** button, if there are no issues found, you should see a confirmation message at the top of the form.

![There are currently no open issues on this form.]

After selecting the **Save and Validate** button, select the **View Issues** button. The resulting page displays validation issues for the current reporting form and allows you to respond accordingly, either by revising the data or providing explanations when applicable. After addressing all validation items, you will be able to submit the report for review (based on your user role).

![SAVE AND VALIDATE SAVE VIEW ISSUES PRINT DOCUMENT CLOSE]

Additionally, you have the option to filter all validation items depending on the Module (asset, financial, etc.), Criticality (important versus critical), Form (any form in the report package), Issue Type (system-generated or manually created by the analyst), or Mode.

**Note:** Critical issues may require a change in data to close the issue.

Validation Issue Types

Similar to previous NTD report years, all validation issues can be considered “Open” or “Closed.” However, the internal validation system allows for a more specific subset of issue status types, including:

- Open with Explanation
- Open and Escalated
- Closed with Data Revision
- Closed with Exception
**Open**: Validation checks that fire upon saving data are considered “Open.” Any validation checks that the analyst returns for further revision are also considered “Open.” All open validation items must be addressed and resolved before the report year closeout.

**Open and Escalated**: A validation issue may introduce a unique, agency-specific circumstance for which an analyst cannot immediately make a judgement call. In these cases, the analyst would bring the issue to FTA’s attention for further review. While the issue is pending resolution, it is marked “Open and Escalated.” These types of issues do not need to be resolved prior to the report year closeout.

**Open with Explanation**: Certain validation issues do not necessarily require a change in the data itself. You may provide explanations for data that is correct but requires further clarification. Analysts review these comments and close issues accordingly with each report submission. While the explanation is pending analyst approval, the issue is regarded as “Open with Explanation.”
**Closed**: An issue which the NTD analyst manually accepts, thereby “closes,” after reviewing the agency’s official response.

**Closed with Data Revision**: Some validation checks fire as a result of a data entry error. In these instances, navigate back to the appropriate form and revise the incorrect values. After making this change, reselect the “Save and Validate” button. If the error is correctly addressed, this item would be newly listed as “Closed with Data Revision” on the “View Issues” page. This status is automatically updated and does not require analyst approval.

**Closed with Exception**: This is an “Open and Escalated” issue that FTA has reviewed and decided to mark as “Questionable” in the annual data product publications. These issues are theoretically resolved, but the relevant data points do not meet NTD reporting requirements. Thus, the issue is not officially “Closed” by NTD standards, but “Closed with Exception” per the questionable notation. You must take steps to report this data correctly in the following report year.
Beginning the Annual Report
At the start of a fiscal year, an agency must confirm information for the prior fiscal year and declare information for the current fiscal year. You must:

- Confirm your Reporter contact information is accurate.
- Confirm your Mode information is accurate.
- Confirm your declared Reporter Type for the previous fiscal year is still accurate.
- Declare your Reporter Type for the current fiscal year.

Completing the Report Year Kickoff
At the start of each new Fiscal Year, perform the “Report Year Kickoff”. The purpose of Kickoff is to create the annual reporting forms for the prior fiscal year (e.g., FY 2016), and create monthly reporting forms for the current fiscal year (e.g., FY 2017).

Note: If your system is already in the current FY (kickoff has already happened), no action is needed.
Below is a summary of steps for the Kickoff.

Kickoff steps:
1. Log-in (registered as an NTD Contact)
2. The system displays five tabs:
   a. News (landing page)
   b. Tasks
   c. Records
   d. Reports
   e. Actions
3. Navigate to the Kickoff tasks by selecting the Task link/tab.
4. Start the Report Kickoff task for your agency.
5. Accept the Report Kickoff task.
6. Navigate to the Profile Tasks.
7. Perform the Kickoff Tasks:

Annual Forms: Basic Information

B-10: Identification Form

Agencies report basic organizational and service area information on the Identification form (B-10).

The first day of the current FY (following end of a FY), the data in the B-10 form is copied from the previous year. This B-10 form is available for editing throughout the FY as necessary.

Prior to starting work on the Annual Report, you must certify the accuracy of the information of the B-10 form. This form, along with information in the profile, dictates which forms are generated for your agency for the Annual Report.

If needed: Return to Annual Forms page and select the B-10 form.

The form sections may be displayed in separate tabs or may be displayed all on the same page (default):

- General Information
- Demographic Information
- Filing Separate Mode
- Seasonal Segment
  - Transit agencies must indicate if a Mode/Type of Service that operates over Fixed Guideway (FG) or High Intensity Bus (HIB) is seasonal. (FB/HIB)

NTD Monthly Reporting

NTD also requires monthly operating and safety statistics reports from agencies that file as a Full Reporter. When you have completed, reviewed and saved the profile information for your Reporter Modes (P-20), NTD will automatically generate the Monthly Ridership Activity form(s) (MR-20) for each mode / type of service your agency operates.

Note: Data reported in the Monthly Ridership Activity form (MR-20) must be consistent with the annual data reported in the Service form (S-10).

MR-20: Monthly Ridership Form

The Monthly Ridership Data is collected by Mode and TOS and is available on the MR-20 form. It provides FTA with monthly trends in passenger usage and service levels.

If a Full Reporter discontinues, removes, or adds an active mode to their report year, the system ensures there are Ridership Activity forms (MR-20) for each month of activity in the report year. The day following the end of each month of the report year, the system creates one of these forms for each mode/TOS combination in the profile which is active in that month. The data includes:

- UPT: Unlinked Passenger Trips
- VRM: Vehicle Revenue Miles
- VRH: Vehicle Revenue Hours
- VOMS: Vehicles Operated in Maximum Service

Agencies must submit monthly data by no later than the last day of the following month.

1. From the Summary page, select the Monthly Ridership Forms button.
2. Select the Monthly Ridership Form by Mode/TOS that you want to update by selecting the Form Name.
   a. The MR-20 for the selected Mode/TOS will open in a separate form.
1. From the Monthly Ridership Form page, review and edit your data as necessary.
2. Select the **Save** button to save any changes made before exiting -or- select **Save and Validate** button to save your changes and perform a validation check on your data.

**Note:** Only when you have completed all of the data for the whole FY and you are ready to submit the data to FTA, then select the **Submit** button. Once you submit the report, you will not be able to make any changes.
1. Select the **Details** button to see the Percentage Changes for data you are updating.
2. Select the **Save** button to save any changes made before exiting -or- select **Save and Validate** button to save your changes and perform a validation check on your data.
Note: If you want to review and resolve the issues for any particular month, select the **View Issues** button in the **Details** section for that month -or- if you want to review and resolve the issues for the year, select the **View All Issues** button.
